About the Journal

Annals of Oncology, the journal of the [European Society for Medical Oncology](#) and the [Japanese Society of Medical Oncology](#), provides rapid and efficient peer-review publications on innovative cancer treatments or translational work related to oncology and precision medicine.

Main focuses of interest include: systemic anticancer therapy (with specific interest on molecular targeted agents and new immune therapies), randomized trials (including negatives ones), top-level guidelines, and new fields currently emerging as key components of personalized medicine, such as molecular pathology, bioinformatics, modern statistics, and biotechnologies. Radiotherapy, surgery and pediatrics manuscripts can be considered if they display a clear interaction with one of the fields above or are paradigm-shifting.

With a large international editorial board of experts who are leaders in their fields, *Annals of Oncology* aims at delivering the best communication on the fast moving, and continually evolving, global oncology landscape.

ED BLOG POST

**World Cancer Day 2018: Is prevention worth more
cure?**

The goals outlined in the World Cancer Day campaign, such as asking for support or creating healthy cities and workplaces, one really stands out. **Prevent cancer.** Mentioned almost nonchalantly, it's easy to forget about the importance of actually preventing cancer in the first place. Accountable for 8.8 million deaths per year, cancer is one of the major causes of death worldwide – yet over a third of these could be completely avoided.

KABUL

Dear Dr. Yüce,
In view of your expertise I would be very grateful if you could review the following
manuscript which has been submitted to Quality of Life Research.

Manuscript Number: QURE-D [REDACTED]

Title: A randomised control [REDACTED]

- Einstein'ın Almanya'da yaşadığı dönemlerde bilimsel dergilerin editörleri hangi çalışmayı yayınlayacaklarına kendileri karar veriyormuş...

- Örneğin, Einstein'ın 1905 yılında çalışmalarını yayınladığı Annalen der Physik dergisinin editörü olan Max Planck bu yayınları kabul etme yetkisi olan tek kişiymiş...

- Einstein'ın 1935 yılında Amerika'ya gelince, arkadaşı Nathan Rosen ile yaptığı çalışmayı Physical Review dergisine yollamış. Derginin editörü olan John Tate, Amerika'daki normal süreç dahilinde makaleyi hakeme yollamış...

- Editör Einstein'ın makalesini, Einstein'ın aynı zamanda Princeton'da meslektaşı olan, Howard Percy Robertson'a göndermiş...
- Robertson, Einstein'ın makalesine 10 sayfa eleştiriler yazmış...
- Editör, bu eleştirileri yanıtlayarak Einstein'a yazmış...
- Einstein, bu eleştirilere yanıt vermemiş...

Hakem eleştirilerini yanıtlarken nelere dikkat edelim?
1. Einstein değilsek asla bu şekilde davranmayalım !

Respectfully,
Albert Einstein

- Einstein bu cevabın ardından makalesini Physical Review dergisinden çekmiş ve camiadaki ünü daha azaltmış. Journal of the Franklin Institute'te de yayınlanmamıştır.

Hakem eleştirilerini yanıtlarken nelere dikkat edelim?

1. Einstein değilsek asla bu şekilde davranmayalım !
2. Einstein bile olsak bu şekilde davranmayalım 😊

- Makaleyi hakemlere gönderdik.
- Anonim hakemler makaleyi inceledi ve eleştiriler gönderdiler.
- Makaleyi hakemlerin eleştirilerine göre düzelttik ve tekrar gönderdik.

Makale revizyonunda nelere dikkat edelim?

- Her revizyon talebine ve eleştiriye kapsamlı şekilde cevap verelim
 - Bu, her istenilen revizyonu yapalım demek değil
 - Haklı olduğumuz konuları savunalım
 - Ancak nezaketimizi koruyalım
 - Hakemlerin editörlere bizden daha yakın olduklarını unutmayalım
 - Gerekli düzeltmeleri yaparken hakem eleştirileri arasında yer almayan, ancak fark ettiğimiz diğer eksik/hataları da revize edelim

Teşekkür ederim
